Creating Special Family Moments

With work obligations and demands to multi-task at every turn, sometimes we need a reminder to slow down and appreciate the people we're with. Investing quality time with family pays for itself with a lifetime of memories that extend far beyond those professional deadlines. Amp up that precious time together with these super-special ideas.

Get outside: Combine fresh air and a bit of exercise with a day outside. Whether planting a family garden or going for a hike, slow down to observe plants, bugs, and animals. Sketch leaves, feel the dirt, and smell the flowers. Record details of the day in a shared family journal.

Cook a meal together: Instead of running through the drive-thru for dinner-on-the-go, involve everyone in preparing a family meal. Discuss and plan a menu, shop for the ingredients, and make the meal together. Of course, eating as a family is just as important. Numerous studies have shown spending dinnertime together has a positive impact on communication, mental health, and food choices.

Celebrate holidays: Create traditions together to commemorate common holidays. Or, create your own special holidays, such as a "family day" or "child appreciation day" with its own unique rituals.

Make a piece of family art: Pull out the craft supplies and dust off the imagination — it's time to get creative! If you've just gotten back from a family vacation, this is a great time to make a trip scrapbook. Or draw and color a joint picture to be framed and hung in an area where everyone can enjoy it.

Set aside a weekly family day: Make a conscious effort to block out at least a few non-negotiable hours to spend together as a family every week. Fill this time any way you want, or take turns planning something — as long as you spend it together!

Word of the Month...

Studies have shown your income and wealth are directly related to the size and depth of your vocabulary. Here is this month's word, so you can impress your friends (and maybe even fatten your wallet!)

Paywall (pay-wall) noun

Meaning: Part of a website that can only be accessed by paid subscribers.

Sample Sentence: After allowing people to read five free articles, the publication had a paywall that required a subscription before they could access anything else.

Why "Goosebumps?"

Goosebumps — the tiny elevations that appear on the skin when you get a chill — got their name because they resemble the skin of poultry after feathers are plucked.

Easy Travel Buddies

Traveling solo? It can be tough to approach people and meet others while traveling, especially for introverts. A few new apps have appeared to help travelers who are in the same areas. Use them to meet a new friend and visit the sights together. Try **Backpackr.org** or download the **Meetup.com** app.

High-Quality Ketchup

To be considered "Grade A" ketchup, it must score at least 85 points on the USDA's 100-point scale. It is judged on four criteria: flavor, color, consistency, and defects.

Quotes To Live By...

"The best way to destroy an enemy is to make him a friend."

—Abraham Lincoln

"Behind every great man is a woman rolling her eyes."

—Jim Carrey

"What you do makes a difference, and you have to decide what kind of difference you want to make."

—Jane Goodall

Recovering From Credit Card Theft

All a person needs to open a credit card is a name and social security number. If someone uses yours, you may not be responsible for charges made on the card, but collection agencies may come knocking and your credit score is at risk. Take immediate action to mitigate any damage.

Contact a credit bureau to report the fraud. Whether you contact Equifax (**equifax.com**), Experian (**experian.com**), or TransUnion (**transunion.com**), that agency will contact the other two. Ask to have a fraud alert placed on your account, which lasts for 90 days.

Contact the card issuer's fraud department. Say you didn't open the account and want it closed. File a police report to move this process along.

Freeze your credit before the 90-day fraud alert expires. Permanently freeze your credit with each of the credit agencies. If you need to apply for credit during the freeze, ask the lender which agency he'll be contacting, unfreeze it long enough to have the credit report pulled, and refreeze it once the application is cleared.

Waiting? Use Your Time Wisely!

According to an article in Time magazine, you spend nearly 13 hours on hold with customer service during the year! But if you prepare ahead for the time you know you'll be stuck in line, or waiting- that time doesn't have to be wasted.

- Read a book or long-form articles you've saved on your phone with an app like Pocket or Feedly (**getpocket.com, feedly.com**).
- Update your lists. Scribble down what you need at the grocery store, organize the weekend's plans, or make a packing list for an upcoming trip.
- Pay online bills. You've got to do it eventually anyway, right?
- Respond to emails or write thank you notes.
- Let your mind wander. Just keep a pen and paper handy so you can make note of great ideas.
- Strike up a conversation and get to know your neighbors.
- Conduct online product research for something you're planning to buy.

Choose A Moving Company

The last thing you need when moving is added stress over the moving company.

- Start searching a month in advance.
- Read reviews on **Yelp** and the **Better Business Bureau** website.
- Gather quotes with details on services offered: Dollies? Padding?
- Get a written statement of the price promised plus fine print details of the services.
- Reach out to a Realtor in your area and see if they have any suggestions! (I'm always happy to help).

Not A Weed

The next time you want to pull a pesky dandelion from the ground, toss it in a salad! They are a great source of vitamins A and C, iron, calcium, and potassium.

Carbon Offsetting Websites

Leave your eco-footprint a bit greener by offsetting carbon when you travel.

www.carbonfootprint.com – An informative website explaining the carbon offset process and the projects it supports.

www.thegoodtraveler.org – Simple and straightforward with a carbon calculator and its U.S.-based project partners.

www.terrapass.com – More robust with an option to purchase carbon offsets, renewable energy credits, or water restoration certificates.

How To Find The Best Mattress For Back Pain

Sleeping on the wrong mattress can be a real pain in the back. And suffering from back pain when you should be getting a good night's sleep can leave you with residual physical problems and a lack of mental clarity.

What does the perfect mattress look like?

- It keeps your spine aligned. Proper spine support at the neck and lower back is essential.
- Its firmness fits your body type and spine alignment. There isn't a one-size-fits-all firmness for back pain, but if you're not sure what's best, look for something with medium firmness or a memory foam mattress.
- It's relatively new. Mattresses older than ten years have lost their structural integrity.
- It comes with a trial period. Some companies have a policy that lets you sleep on — and return — a mattress for up to 100 days with a full refund if it isn't right. Take advantage of this.
- It's not the least expensive in the store. Studies have shown that people who sleep on cheaper mattresses report more lower back pain, so opt for a medium- or higher-priced bed, if possible.
- It's custom built for you. If your budget allows, shop for a brand like **Helix** that offers tailor-built mattresses based on your individual needs.

Choosing the right mattress can combat lower back pain, but sleeping in the right position is also important. Try one of these sleeping positions:

- On the back with knee support.
- On the side with a pillow between the knees.
- In the fetal position.
- On the front with a pillow beneath the stomach.

Kiddo Morning Routine

Get the kids up and out the door with a few helpful tricks:

- Prepare the breakfast table and make lunches the night before.
- Create a morning soundtrack with the right energy to match certain tasks at certain times.
- Let kids eat breakfast before getting dressed ... just in case there are spills.

Allergy-Proof Your Home

Airborne pollen means spring fever.

Keep that sneezing at bay by:

- Placing a doormat both outside and inside the front door.
- Keeping windows closed.
- Not using rugs.
- Vacuuming frequently and thoroughly.

Real Estate Corner...

Q. What do buyers really want when looking for a house?

A. Here are ways to tap into what every buyer wants:

- **Every buyer wants a place to call "home"**. The decision to buy is *emotional*, not 100% logical. Buyers look at a "house," but they're really evaluating it for its potential to become their home. Properly staging your house allows buyers to have an emotional experience – seeing their family living there.
- **Every buyer wants a bargain**. Subtly influence buyers by using such phrases as "priced to sell" or "a unique bargain at this price."
- **Every buyer wants to claim special discounts**. You can motivate a sale by creating a sense of *urgency*. Consider using special terms that expire on a fixed date.

Where is the Housing Market Headed?

Sacramento County as a whole showed an improvement as compared to February but not to last year. Less homes sold in March 2019 than sold in March 2018 – 7.6% less. What's worse is it took longer for those homes to sell. The good news is average price per square foot, while not a good indicator of a homes' value, but a reasonable gauge to use, was up 3.1% to last year and the median sold price was also up 1.4%. While it sounds good these figures are considered a "Neutral" market trend.

The number of homes for sale was less in March than the previous month and as compared to 2018 making a tight market inventory wise even tighter. Months of inventory was down to a scant 1.3 months of supply, well under the 3-6 months we prefer to see in a more balanced market. Near historic low interest rates have helped buoy the spring buying season. Already this month we are seeing more homes on the market for the first two weeks of the month then we did at the same time last month with days on the market dropping as buyers make best use of the improved rates

So, what's it all mean?

If you are thinking about selling – do it sooner rather than later. While the spring should bring fresh buyers it will also bring more inventory as we are already seeing. With the stock market at a 10 year high I hate to think what can happen if we have a dip in the economy should housing follow

If you are thinking about buying – interest rates remain at historic lows. Spring should bring added inventory but it also brings increased competition from other buyers.

Buying or selling – Really the right time to buy or sell **is** when the time is best for **YOU!** If you get more for your home when selling or get a great deal when buying – that's just gravy.
